Setup printing on personal Mac

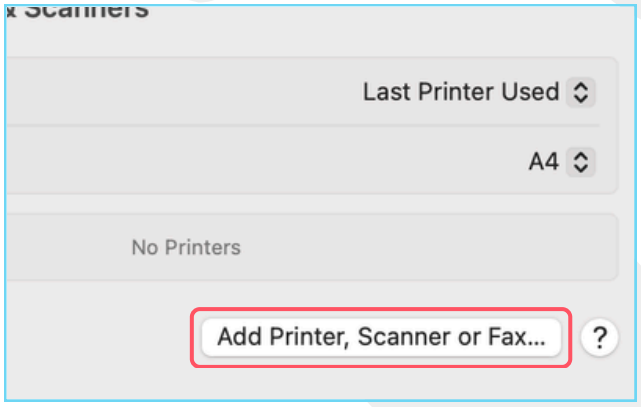

1. In your Mac app tray, or via the Apple logo in the top right, open **System Settings**.

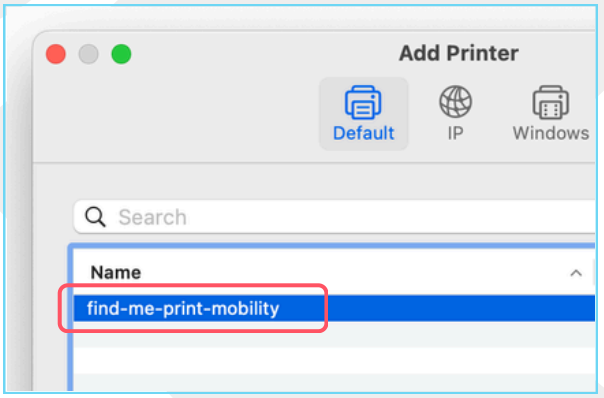

2. Scroll down on the left menu and click **Printers & Scanners**.

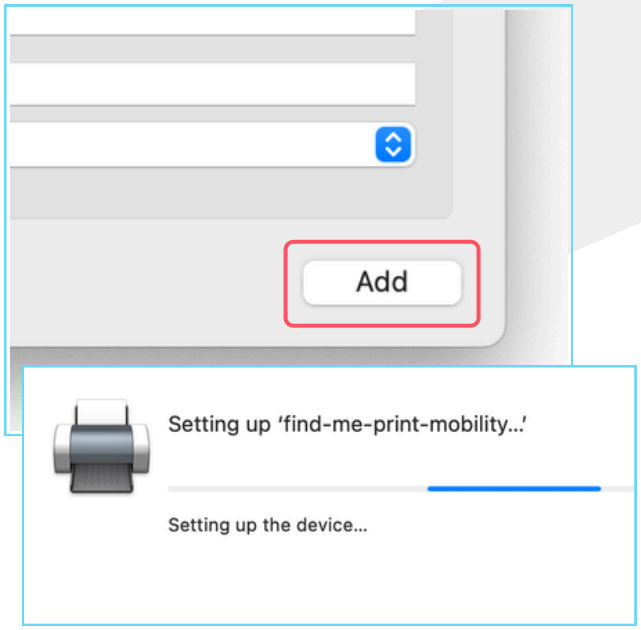

3. On the right, click the button **Add Printer, Scanner or Fax...**.

4. From the list, select the **find-me-print-mobility** printer from the list.

5. Click **Add** in the bottom right and wait for the printer to install.

6. The printer will now be added, and should state it is Idle.
