

Northampton College Strategy / Action Plan for Careers Education, Information Advice & Guidance (CEIAG) 2023 –2024

Introduction

At Northampton College, we are committed to providing our students with a comprehensive programme of Careers Education, Information, Advice and Guidance (CEIAG) and have a Matrix accredited service. The Careers Lead and Assistant Principal of Student Services Mark Owen oversees CEIAG alongside the Futures Team Leader, IAG and Schools Coordinator Kirsty Lee.

The College works towards the <u>Careers Guidance – Guidance for further education colleges and sixth form colleges' (October 2018) and</u> the <u>DFE Careers Strategy (2017)</u> and other good practice guidance from the Department of Education, OFSTED and other relevant bodies. Effectiveness of the CEIAG provision is assessed using the <u>Gatsby Benchmarks</u> and evaluated termly through The Careers and Enterprise Company's Compass evaluations.

Northampton College's CEIAG Strategy has been developed in response to these documents.

It is our belief that each student at Northampton College should be well prepared for the opportunities, responsibilities and experiences of life beyond education. Learners experience curriculum learning that highlights the relevance of their subject to future career paths.

Northampton College's Futures team consists of 3 Careers Advisers. Careers staff either hold or are working towards a Level 6 Careers Education/IAG qualification with some holding other degrees and postgraduate qualifications. Futures advisers provide high quality, professional and impartial careers information, advice and guidance to support the students' learning journey and progression into work, training or higher education.

Futures staff work closely with Curriculum Managers and Curriculum Careers link staff to support the development and inclusion of careers learning within the curriculum. The careers related content of each course is mapped against the Gatsby Benchmarks to identify examples of best practice, areas for development and employer engagement.

Our Careers Education and Work Experience programmes provide students with skills, knowledge, support and insight into the world of work to enable them to make informed choices for their future to maximise their potential. Northampton College also supports students in researching and identifying a full range of opportunities, raising aspirations, challenging stereotypes and supporting progression to their next steps.

Northampton College encourages parents and guardians to play an active role in exploring the options and choices which are best for their child, providing relevant information on their progress, and advice and guidance on progression options and links to local labour market information. Having access to labour market information is critical when exploring career options and making career decisions. Labour market information can tell us; skills currently sought by employers, areas of work that are growing and those that are in decline, education or training required for particular jobs, industries that are prominent in particular areas of the UK, where there may be skills gaps with demand for workers.

Northampton College also supports adults in the local community to access courses specifically designed for them. The aim of these courses is to support adult learners to build on their skills to enter, or succeed further, in employment or education. Northampton College staff are committed to supporting adults to overcome barriers to learning and to progress successfully in their chosen career path. Where these courses are part-time students can still access careers advice and guidance from the Futures team at a time to suit them, as well as the careers resources on the student intranet and in the College libraries.

Uni Connect are part of the Aspire Higher Consortium with the Universities of Northampton, Bedfordshire and Hertfordshire, working across the three counties to develop and share opportunities and resources to encourage and support students progressing to Higher Education whether at University, Further Education College or through Apprenticeships. The Uni Connect project worker linked to Northampton College both creates and promotes these opportunities to young people and adults studying here, complementing the work of the Futures team.

Scope

This strategy applies to all identified young people and adults on any College study programme as well as the managers, teaching staff and support workers that contribute directly to the educational and wider experiences of these students.

Aims & Objectives

- To provide a structured programme of teaching and learning that allows each student to develop the necessary values, skills and behaviours for life.
- To ensure students will receive a rich provision of extra-curricular and work-related learning activities that develop a range of character attributes, such as resilience and aspiration, which underpin success in education and employment.
- To provide access to high quality, independent careers guidance that helps students emerge from college as rounded individuals and ready for the ever-changing world of work.
- To ensure all students will be well-informed on a full range of options when making subject and career decisions.

- To provide a variety of opportunities to all students for engaging with employers, universities and other education providers to experience a working environment during their time at Northampton College
- To deliver services to students using both physical and digital means to support remote working during either lockdown or periods of limited social contact.
- To provide resources and information that allows parents to support their children in making informed choices on a wide range of opportunities.

CEIAG Strategy

Northampton College uses the most up-to-date information released by the DfE on careers guidance to help ensure all students are fully prepared and informed about their next steps. The following specifications are key to achieving the strategic objectives;

- Provide access to a range of activities that inspire students, including presentations and careers fairs, employer talks, mentoring and university presentations.
- Build strong links with employers from the local community who can help to boost employability skills, inform students about the range of roles and opportunities available and help them understand how to succeed in the world of work.
- Offer high quality work experience.
- Widen access to advice on options available post-16 and post-18, exploring digital methods.
- Deliver professional careers guidance to provide individual advice and guidance, building confidence, focus and motivation.
- Ensure measures are taken to identify vulnerable young people, including those with special educational needs and those at risk of not participating in post-16 education or training, and provide the necessary support and guidance to them.
- Ensure students are aware of the full range of options that are available to them post-18 and that they are supported in following the most appropriate pathways. This includes information on the availability of funding, access courses and the development of personal statements.
- Consciously work to raise aspirations and prevent all forms of stereotyping in the advice and guidance provided, to ensure that students from all backgrounds and diversity groups consider the widest possible range of careers.

Work Experience

Northampton College's Work Experience Programme seeks to assist the College in its joint aims of providing opportunities for all students to learn and achieve, and promoting students' spiritual, moral, social and cultural development; preparing all students for the opportunities, responsibilities and experience of life. This is achieved by providing all students with the opportunity to learn about work, learn through work and learn for work. All students on appropriate study programmes complete a relevant work experience placement.

- Parents and students will be briefed on the importance of work experience and given an overview of the process at the start of the academic year.
- A Work Experience pack will be provided to each student to support them in their placement.
- Further support will be provided in college by dedicated work experience staff.

SEN Provision students with special educational needs will be given special consideration and guidance when choosing a placement. Any details of relevant special educational needs will be forwarded to employers, and if necessary, a phone call will be made to discuss the possibility of special provision during the placement.

Responsibilities of Students

- Be actively involved in and take ownership of their progression planning and career development
- Attend punctually all planned Progress and Support sessions, Futures appointments and CEIAG activities
- Work co-operatively with staff and fellow students, respecting the views of others and the principles of equality and diversity

Key Areas for Development in 2023-24

1. Careers in Curriculum

- Careers in Curriculum link staff to work with the Futures team to support the development and inclusion of careers learning in the curriculum.
- Increasing use of labour market information to promote opportunities where there are skills gaps.

2. Enterprise

- Explore methods of promoting entrepreneurship to students e.g. a week of activities including guest speakers, starting your own business / self employment.
- Map all cross-college employer engagement.
- Increase employer engagement in curriculum areas.

3. Parent Engagement

- Develop the careers section on the Northampton College website aimed at enhancing parents' understanding of careers and progression opportunities.
- Termly careers newsletter targeted at parents.

4. Schools Liaison

• Develop a 2023-24 Schools Liaison strategy to target top 20 feeder schools, identifying those from which applications/enrolments have declined.

|---|---|---|--|---|--------------------------------------|
| 7. Encounters with further and higher education | All students should understand the full range of learning opportunities that are available to them. This includes both academic and vocational routes and learning in schools, colleges, universities and in the workplace. | By the end of their programme of study, every student should have had a meaningful encounter* with a range of providers of learning and training that may form the next stage of their career. This should include, as appropriate, further education colleges, higher education and apprenticeship and training providers. This should include the opportunity to meet both staff and students. *A 'meaningful encounter' is one in which the student has an opportunity to explore what it is like to learn in that environment. | Higher Education institutions invited to attend the annual Careers Fair (if social distancing allows for this) presentations delivered by HE institutions: Introduction to UCAS Student Life and Budgeting Personal Statement writing Preparation for open days University Interview preparation Guest lectures on specific subjects | Careers Fair preparation booklet to be completed by the student. | | | | | | Ongoing |
| | | | Uni Connect coordinator works with the Futures team, offering opportunities to raise | | |
| | | | students' aspirations. | | |
| 8. Personal guidance | Every student should have opportunities for guidance interviews with a career adviser, who could be internal (a member of college staff) or external, provided they are trained to an appropriate level*. These should be available for all students whenever significant study or career choices are being made. They should be expected for all students but should be timed to meet individual needs. | Every student should have at least one such interview by the end of their study programme | Students have the opportunity to book an appointment with a Futures advisor as many times as they would like. There is the option to have telephone or email guidance, or a Teams call. 1:1 appointments in person can also be arranged with parents if requested. Curriculum staff and Academic Coaches | Increase the number of 1:1 in person guidance interventions through self-referral system and more promotion of the Futures service | Futures Team and MIS team – Autumn term 2023 |

Review

This strategy will be reviewed on an annual basis. The review will include perceptions of all stakeholders, as well as those college staff with direct involvement in supporting students' learning programmes.

Additional Reading

This strategy should be read in conjunction with the following:

- Northampton College CEIAG Policy 2023-24
- Northampton College Work Experience Policy 2023-24
- Northampton College Mission Vision and Values
