

# Get the Intune Company Portal app to sign into your mobile device

Download the Intune Company Portal app\* to setup your personal mobile device.

To setup the Company Portal app on your mobile device, follow the steps below for both an Android device and an iPhone:

## Setup Company Portal on an Android device:

1. Download and open the Company Portal app. Select 'Sign in'.

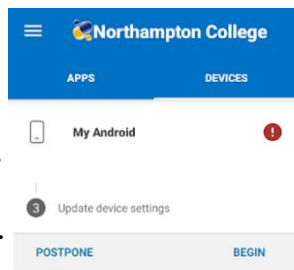

2. Enter your Northampton College details in the Sign in pop-up.

3. MFA may be required to sign in. If the Android device does not have Microsoft Authenticator, or MFA is not setup, follow the MFA setup guide.

4. Once you are signed in, go to 'Devices' and select 'My Android'. You can skip this step if the set-up screen has appeared automatically.

5. Select 'Begin' to start the set-up.

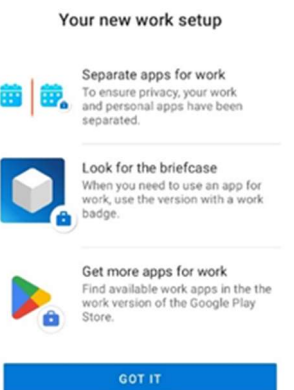

6. Review the privacy information and press 'Continue' when ready.

7. Set up a work profile. The following setup will vary depending on the device you are using. Please ensure all terms are read and agreed and permissions are granted in this step.

8. Once the work profile has finished setting up, return to the Company Portal app. Read the information displayed and then select 'Got it'.

Intune Company Portal is now setup.

To manage your account and remove the college profile, access the menu in the Company Portal app.

## Setup Company Portal on an iPhone:

1. Download and open the Company Portal app. Select 'Sign in'.

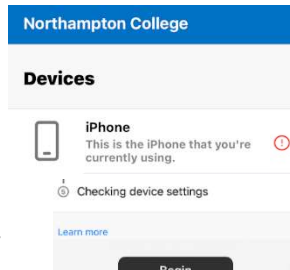

2. Enter your Northampton College details in the Sign in pop-up.

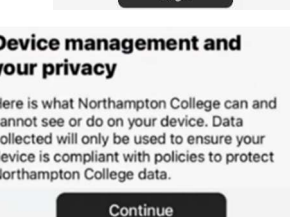

3. MFA may be required to sign in. If the iPhone does not have Microsoft Authenticator, or MFA is not setup, follow the MFA setup guide.

4. Once you are signed in, go to 'Devices' and select 'iPhone'. You can skip this step if the set-up screen has appeared automatically.

5. Select 'Begin' to start the set-up.

6. Review the privacy information and press 'Continue' when ready.

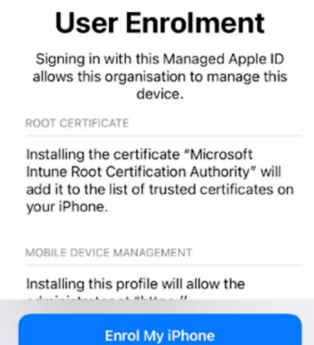

7. Download the management profile. In the following pop-up select 'Allow'. Then select 'Close' then 'Done' in the top left.

8. On your iPhone open settings. Select 'General', then 'VPN & Device Management'.

9. Select 'Management Profile' then 'Enrol my iPhone'. You may be asked to enter the iPhone's passcode.

Intune Company Portal is now setup.

To manage your account and remove the college profile, access the Management Profile in settings.
